

<u>DISTANCE</u>	<u>REMARKS</u>	
3.00	Intescale land alder growth to the north bank of the East Branch	
0.66	<u>                    </u> said East Branch running E.	
11.34	Ascending a high hill, growth spruce and sapling pine to a stake making.	3
80.00	Six miles.	
West Line of Township No 6 in the 9th Range run South from the last named stake		
15.00	Ascending and passed over several small <u>ridges</u> growth have wood and pine of a <u>good</u> quality.	
65.00	Growth hardwood spruce and pine to and marked a cedar stake 5 miles <u>    </u> .	3
80.00	← On the last 15 chained the pine is scattering.	
6.40	Descending gradually to a stream about 75 links wide running NE suitable for driving of logs.	3
1.10	A <u>crop</u> said stream.	
55.00	Ascending gradually, growth hardwood and spruce with a with scattering of pine of a good quality <u>                    </u>	3
5.00	Acre of land that was burnt over about 5 or 6 years ago which extends about 1/2 mile East and southeast 4 1/2 mile West growth principally hardwood and hillside.	
12.50	Five descending south growth hardwood and	2
80.00	<u>2 miles</u> marked a small fir tree 4 M	
16.50	Descending to a brook 12 links wide running of NE growth hardwood and spruce.	
23.50	Ascending over the west side of a ridge which is burnt over growth spruce and cedar.	
15.00	Ascending a hardwood ridge.	2
20.00	Growth spruce and pine which is large and handsome on both sides of the line.	
5.00	Cedar swamp to and marked a cedar.	
80.00	<u>3 miles</u> tree 3 M <u>    </u> standing near a nigh ledge.	
63.50	Growth cedar spruce and pine, surface rough to a small brook running NE.	3
16.50	Growth spruce, cedar and hemlock with scattering pine trees in every direction.	
80.00	<u>4 miles</u> Marked a yellow birch tree 2 M <u>    </u>	
30.00	Growth spruce and fir.	3
10.00	" hardwood surface flat.	2
15.00	" spruce, fir and a little hardwood.	3
5	" spruce, fir and timber pine large and handsome.	2
20.00	Ascending a hardwood and spruce ridge	
80.00	<u>5 miles</u> and marked a hemlock tree 1M <u>    </u> standing on the top of said ridge.	3
61.25	Descending a steep hill growth small spruce and sapling pine, the old growth mostly fallen down surface even except a few chains of the last part of this distance to a branch of Trout Stream running southeast 5 links aside suitable to drive logs down.	

*Wester Stream*

*Wadley Brook* →

18.75 Growth cedar and alders, surface flat grow for \_\_\_\_\_ 2  
 making six miles on this Township marked a cedar tree  
 for the corner on the southeast side TN 5 on the north-  
 west side TN 6 on the east ROJW 1832 \_.

West Line of Township N 5 in the \_ Range run South from the last  
 named cedar tree

15.00 Growth cedar surface flat 3  
 20.00 " spruce and pine timber \_ quality surface 3  
 12.00 Even ascending a spruce ridge scattering pines of the 2  
 first quality for logs.  
 2.00 Descend a steep hill to a small brook NE growth hardwood 1  
 surface even to the main Trout Stream 50 links wide  
 running N 20 E.  
 3.25 Up and in said stream to the southerly bank.

BRADLEY AND ROSE - 1833

VOL. 74

DISTANCE REMARKS  
 NORTH LINE OF TOWNSHIP N 6 10 RANGE  
 SOUTH " " " N 7 " "  
 Run N 5 25 W by the needle

Beginning at the Spruce Post erected and marked by me  
 last year for the NW corner of township A 6 and SW cor-  
 ner of township A 7 in the 9th range of townships west  
 from the East line of the State. I marked said post on  
 the NW side T.N.7. on the SW side TN6 on the W side  
 R10 1833 -

40.00 Descending NE broken and ledgey - mix growth and some 2  
 excellent pine timber.  
 20.00 " N growth hardwood hemlock and spruce and 2  
 cedar.  
 20.00 Growth spruce fir hemlock cedar and good scattering 3  
 pines to and marked a cedar tree 1 N 6.  
 10.00 Mixed growth and good scattering pines land descending 2  
 N about 1/2 mile N is a dense growth of pines.  
 36.00 Descending NW growth spruce, fir, cedar hardwood and 3  
 some pine.  
 4.00 Growth the same to and marked a fir stake 2M.  
 40.00 Growth spruce, fir, cedar, birch, and scattering pines. 3  
 40.00 Land low and flat covered with a dense growths of 3  
 beech birch spruce, fir and very few pines to and  
 marked a spruce tree 3M.  
 33.00 Growth spruce, fir, birch and considerable pine land 3  
 descending NW to a brook running NE.  
 7.00 In and by the south side of said brook. 3  
 3.00 To and acre of said brook. Re NE this brook affords  
 considerable water water and may perhaps be used for  
 transporting lumber.  
 37.00 Growth very thick spruce, fir, cedar, alders and much 3

	fine timber of middling quality, soil poor to and marked a spruce tree 4M.	
40.00	Land flat and moist. Growth the same.	3
40.00	Growth spruce, fir hardwood and large pines to and marked a fir tree 5M.	2
15.00	Same soil and growth.	2
25.00	Pass over a ridge of mixed growth, few pines.	2
33.50	Growth hemlock, spruce, fir and some excellent pines to a brook running NE.	3
6.50	in and past the brook making 6 miles.	
15.00	Growth cedar, larch, ash and birch to a brook running SE.	
2.43	Same growth to a fir tree in the line just run by Edwin Rose for the West line of the 10th range 5 chains 6 links south of a stake by him marked 6M which stake I removed and marked said fir tree for the corner of townships N 6 and 7 in the 10th range as follows to wit: on the E side R10 _ on the SE side TN 6 on the NE side T N 7.	

NORTH LINE OF TOWNSHIP N 7 AND SOUTH LINE OF TOWNSHIP N 8 IN THE 10TH RANGE  
Run N 75 30' W by the needle

Beginning at the Cedar Tree marked last year by John Webber and myself for the NW corner of township N 7 and SW comes of township A 8 in the 9th range \_\_\_\_\_ marked said cedar on the NW side TN 8 on the SW side TN 7 on the W R10 1833 for the NE corner of township N 7 and SE corner of township A 8 in the 10th Range.  
Thence run and measured.

3.60	To the Aroostook Stream running SE.	3
11.40	Growth chiefly alders to SW shore of said stream running SE having _____ it twice.	2
11.00	Growth principally alders to said Stream R.SE	2
12.50	" " " some cedar fir and spruce, to and marked a Cedar Tree 1M.	3
38.50	Growth hardwood to a brook R NE.	2
33.	" mostly hardwood.	3
8.50	W/spruce, cedar and fir, to a spruce tree marked 5 M _	3
30.50	Growth cedar, spruce and scattering pine to a brook running SW.	3
15	Growth same to the same brook running North.	
3	In the brook which is 50 links wide	
1	To a dead Stream running East 12 links wide.	
20.50	Growth spruce cedar and pine.	3
10.00	Cedar swamp some scattering pine to a stake marked 6M_.	3

WEST LINE OF TOWNSHIP N 6 IN THE 10TH RANGE Run North 14 45' East

23.	Growth spruce fir and much good pine.	3
7.50	Bog to a dead stream 50 _____ of the stream.	
4		
15.	Bog.	4
34.	Growth spruce, fir, cedar, pine and hardwood to a spruce tree marked 1 M _ . The pine on this distance is	

large, sound and thick - it extends West on a ridge which is very heavily timbered with pine.

59.25 Growth mostly dark, heavily timber with pine land low to a pond. 3

20.75 In the \_\_\_\_\_ which makes 2M.

5.25 To the North shore of the pond.

28. Land low, heavily timbered with pine. 3

5 Bog. 4

31 To the top of a high ridge, land rough, growth mixed, much pine. 3

10.75 This distance is rough and descends to a swamp on this ridge is an excellent growth of pine which extends to the East 3 or 4 miles, the timber appears to be of the first quality, the remainder of the growth is spruce, cedar, fir, hemlock and hardwood to a stake marked 3M\_.

36.50 Cedar swamp to a brook running NE. 3

18.50 " " to the edge of a ridge. 3

25.00 Growth mixed some pine to a stake marked 4M \_ . 2

28.25 Mix growth, low land to a brook running NE. 3

25.30 Growth spruce and pine to a brook running SE. 3

16.45 Growth spruce, fir, and pine, to a stake standing on the south side of a lead stream marked 5 M \_ . 3

75.90 Growth cedar, spruce, sir, hardwood, pine land low to a brook running East.

3.50 To a stake marked 6 M \_ .

1.50 Of water making 5 miles.

59.60 To the West shore of the pond making the whole distance 61 chains 10 links \_\_\_\_\_ said pond.

20.40 Land wet and stony - mixed growth. making 6 miles

19.24 Descending SW mixed thick growth to a Cedar Post in the line just run by Edwin Rose and 6 chains 4 links south of a stake marked by said Rose 6M. I removed said stake and marked said Post for the NW corner of township A 7 on the E side R10 \_ 1833. Said Post stands 6 links south of a cedar Tree marked 7B \_ . The whole length of this line is 6 miles 19 chains 24 links.

NORTH LINE OF TOWNSHIP N 5 AND SOUTH LINE OF TOWNSHIP N 6 IN THE 10TH RANGE

Beginning at the Cedar Tree marked last year by John Webber for the NW corner of township 6 in the 9th range and now marked by me for the NE corner of township N 5 and SE corner of township N 6 in the 10th range on the SW side T N 5 on the SW side T N 6 on the W side R10 \_ 1833 T13. Thence run N 75 30' W.

34.50 Growth spruce, fir, cedar, hardwood and few pines to a small brook running NE. 3

51;50 " hardwood and soft. 2

21.00 " " fir, spruce and some pine to a small brook running NE. 2

19.00 " hardwood, fir, spruce, cedar and much good pine to cedar tree marked 1M. 2

40.00 Growth hardwood, hemlock, spruce, fir, cedar and pine - 2

	soil stony but strong - surface uneven.	
30.00	" spruce, fir, cedar, hardwood and much pine.	3
10.00	" " " " _____; land boggy to our mar-	4
	ker.	
40.00	Growth spruce, fir, hemlock, hardwood and cedar and	3
	good pine 7000 ft. to the acre.	
15.00	Growth mostly spruce, fir, hemlock and pine.	3
25.00	Swampy - much pine of a middling quality to and marked	3
	a Spruce Tree 3M.	
38.75	Descending SW swampy and stony and wet. Growth spruce,	3
	fir, cedar, pine of good size to a small brook R.S.	
41.25	Land very low and full of water - growth ___ ash, fir,	3
	cedar, spruce, birch and scattering pine.	
40.00	Growth cedar, ___ ash, spruce, fir, and pine.	3
40.00	" hardwood, hemlock, spruce, fir, cedar and very	3
	good pine butt scattering.	
30.00	Same growth but more pine.	3
10.00	Low and swampy - small bushes very thick and some very	3
	good pines.	
31.00	Growth spruce, fir, cedar, hardwood and good pines -	3
	soil stony to a large brook running (Thissell Brook) NE	
	supposed to be a branch of Trout Stream.	
9.00	Same growth making 6 miles.	3
8.44	Same growth to a Cedar Tree in the line run by Edwin	3
	Rose and 4 chains 75 links South of the Stake marked by	
	him 6M. Therefore the W line of township N 5 is 5	
	miles 75 chains 25 links and the W line of township N 6	
	is 6 miles 31 links - I marked said Cedar Tree for the	
	NW corner of N 5 and SW corner of N 6 in the 10th range	
	on the SE side TN5 on the NE side TN 6 on the E. side	
	R10 ___ 1833.
