

# PAKATAKAN MTN. LOGGING

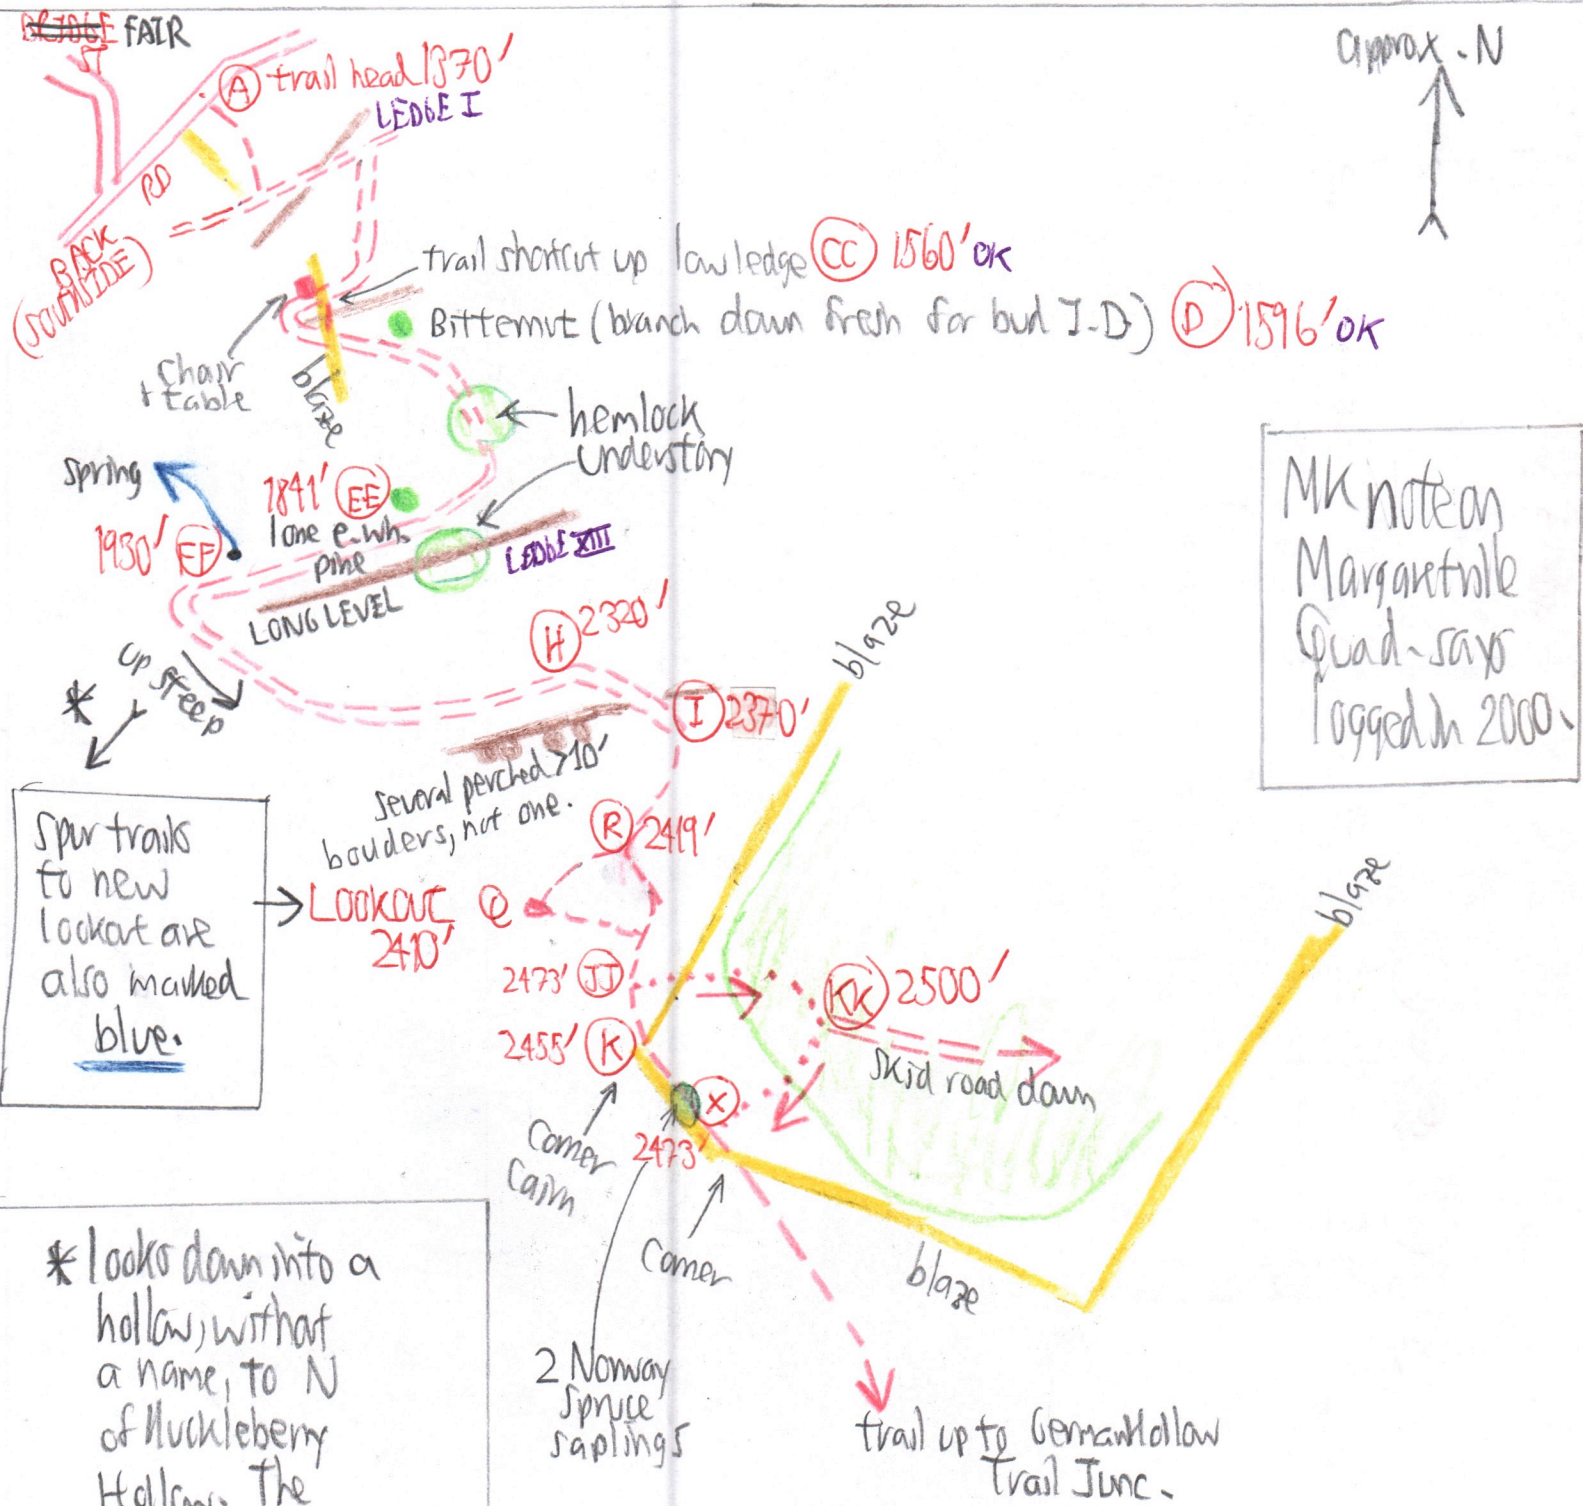

12/24/05

290-62

with Chris Carey

See pp 290-26-29 of 6/12/89

Circled letters (A), (B), (C), (D), etc. coincide with the 6/12/89 letters.

Spor trails to new lookout are also marked blue.

\* Looks down into a hollow, without a name, to N of Nuckleberry Hollow. The plantations on the ridgecrest N of Hill Rd. are visible.

Mk note on Margaretville Quad - says logged in 2000.

# Elevations on descent

29063

site	P	$\Delta p$	$\Delta e$	e calc	e map	time	R
(A) Trail head	30.03	—	←	←	1370	12:26 PM	
(KK) Logging site	28.77	1.25	1130	2500	2500	2:25	
(X) end swimway	28.80	1.22	1103	2473			
(K) corner on trail	28.82	1.20	1085	2455			
(JJ) bushwhack begin	28.80	1.22	1103	2473		2:50	
(O) new lookout	28.87	1.15	1040	2410			
(R) lookout lower jc.	28.86	1.16	1049	2419		3:06	
(I) road thru ledge	28.94	1.08	976	2346	2370		
(HH) perched boulder	29.00	1.02	922	2292	2320		
(FF) SW end long level	29.41	0.61	579	1949	1950	3:45	
(EE) NE end long level	29.50	0.52	470	1840	1900±		
(D) bitternut	29.77	0.25	226	1596			
(CC) trail shortcut	29.81	0.21	190	1560	1620		
(A) Trail head	30.02	0.00	0	1370	1370	4:15 PM	

$$\frac{2500 - 1370}{30.02 - 28.77} = \frac{1130}{1.25} = 0.904$$

Notes:

- (CC) Trail takes a shortcut up a low ledge while road goes around it.
- (D) Bitternut near Shagbark spotted in 1989. SNAG not seen on 12/24/05.
- (I) The highest pt. where trail is clearly on an old road, cut up through ledge. Above, prob. a fast trail anew.
- (O) Lookout needs a Snowless check for any Potentilla tridentata. OAK, BB, VACC, RHODO, RM
- (KK) Logging site. Mk note on Mville 7.5' Quad says in 2000. Remaining in 2005 are defective SUB. MA, RS, RA abundant. scattered. Stumps covered with snow. Return trip in Spring 2006 to I.D. & age: prob OAK, ASH, maybe BC, which began after Lucerne operations ended. Maybe some SUB cut, too. 1 stump ASH.
