# Vegetation

2526' (C) *Stemmenia* patch in full fl. at "dead end" sign. Is this the largely only Cs sta.?

(D) Pastures still open since 1945  
Seager quadrangle because of  
2526 to 2720' *Solidago* + *Dennstaedtia* allelopathy.  
*Spiraea lat.* also common.

2619' (E) Scattered old SUBs in pastures which have become reforested suggest sugar-bushes; also on HBR Trail up DBR to the south above plantations.

(F) Norway spruce plantation small and  
2720' about 55 years old, i.e., ca. 1950.  
Post-dates C.C.C. 1° is not far above with a very narrow logged zone barely 120' thick.  
PB in col.

2720' to 2661' (G) Follow terrace to NE. 1° is reached in about 15 minutes, maybe 1/4 mile, with several SUBs 25", 28", 36" ASH cut by (H). Talus above. LAP seen on terrace. Beech to 18" dead.

(I) BASS marks rich, moist cove forest. 2559' + 2458'

2424' (K) ASH common to 12" below; slope gentler below; several BCs < 10".  
2° SUBs 24" + scat, older, probably

(L) For sugarbush. Small spur between  
2390' lobes of double cove 2° with 2 PBs, Norway spruce naturalization, BC, ASH, OST.  
Gentler slope.

(M) 1° on steep, baldy slope. 1 BASS.  
2475' 30" SUB, 33" SUB, 33" OAK, 33" ASH. Some 36". No-d-tape. Dbhs estimated conservatively. Canopy (N)

2703' gaps common.

(O) Terrace with MO dom following a blizzard 20 to 25y ago. few mature SUBs standing. About half SUBs down from NE winds. OST abn 6" to 8" common. 1 BASS. *Hepatica*, *Botrychum virginianum*, *Adiantum*, 1 ASH, *Nyctrix*. Canopy about 80' tall.

(P) 30" YBs. *Geranium robertianum*;  
2821' *Rhac*, *Actaea nra*, Steeper.

(Q) On spur, 1° 2906' above long flat  
(R) 24" BC + SUB mixed. 22" B live.  
2745' 30" BC + 18" SUB joined at base  
2830' far about 2 or 3 ft above the ground (any grafting of vase. tissue?)  
YB 30". ASH 33". On long flat on spur

(T) 5' high knob on spur flat does  
2830' not show on topo map. Largest BCs 16". Younger forest. 2°.  
Few dead, dying + mature trees.

(F) 71° F in school bus col. 2720'

(D) Rill flows down <sup>old</sup> road: See p. 2568'

(E) IMP, *Nyctrix*, *Keraleum*. 2619'  
ZIZI in flower between

(G) to (B) 2526' to 2424'

Cold Spring Hollow
