

Dunham Road, 10/15/08

451-1A

Bog #405?

Meredith

The wetland shown on Delhi 1943-1982 Quad is not visible from Dunham Rd. The forest looks all well-drained.

To Delhi

There are no "fell-tak" spruce or fir in the whole Dunham Rd + Honest Brook area on well-dr sites and/or in old fields. This suggests that no spruce or fir occur in the hidden wetlands, but this must be confirmed by aerial photos or off-road field checks.
