Continued over

(continued over)

461-8

Willows

- A** rubens; large discolor 20' x 5' SE of culvert; seneca next to eriocephala SW of culvert.
- B** eriocephala & bebbiana W side of (36); seneca & seneca x eriocephala on S side of Geo-Lawrence Rd.
- D** seneca 0.1 mile from (36)
- C** seneca & seneca x eriocephala
- E** ditto, viewed from a cross a lawn with monoculm
- F** no stop; mainly alders.

Other

- C** Angelica around the beaver pond
- B** Comus rufescens ?
Lvs only 1" wide with 4 pairs of lateral veins. Branches not bright red
- F** Achillea millefolium

Nil willows between **A** & **B** because road is high up away from stream

Note - eriocephala has redder midrib than seneca down blade & anther.
