

UD grade east of Old Shandaken 188-5

3/17/16 on return from Mtn Top Arboretum preserving
 May lecture on hemlock
 (Make copies for RR filest CCD + Alan W's Scanning)

to Old Shandaken Station, MP 33.69

Hike time round-trip, 1 hour
 Condition of grade: No thickets
 but many trees down across it
 that need to be stepped over or
 ducked under

Notes-

- (A) Unknown embankment could have been a RR relocation??
- (B) Two damaged banker logs could be chestnut? Sample taken from 1st (westerly) one for I.D.
- (C) MP 33 was somewhere in this vicinity. Now gone
- (D) End hike - Fox Hollow bridge visible downstream perhaps 1/4 to 1/5 mile.
- (E) Washout with whole RR grade gone. Rails twisted & descended to edge of creek. A huge landslump.
- (F) Vegetation = only OAK & BB, except for possible Chestnut at (B).

(D) ↑ Washout
 End hike approx. 32.8 Mp
